# **Breakthrough Genital Wart Infection Relief**

## **Introduction.**

Welcome to the Breakthrough Genital Wart Infection Relief Manual. If you suffer from Genital Wart infection, acute or chronic, I want you to smile and feel good. No, I want you to smile and feel great. Why?

Because the information contained in this manual has helped thousands of people with their Genital Wart infection – and now you have the opportunity to ease your own suffering. In the years to come when you are enjoying your life, you can look back on your life and truly say 'That was the day I began to get better'.

If you don't suffer from Genital Wart infection, but someone you love or care about does, then you too can smile, because you can now help them to get better much quicker.

## **A Brief Word On Our Environment And Genital Wart Infection.**

Health is a major problem the world over. Our whole environment is changing faster than it ever has in the history of mankind. Never before have our bodies had to cope with new plastics, new chemicals, new gasses, new cleaning materials, new vapours, new radiations, new drugs, new microwaves, genetically modified crops, new foods... the list goes on and on.

Mother Nature tries her best. Our immune systems have an amazing ability to try and protect us from the ravages of an ever changing environment.

But we don't really know how any of the new 'stuff' in our environment is affecting us.

Indeed, it may be that some of the wonders of the 20<sup>th</sup> century, like processed food and drugs, are actually weakening our immune systems, leaving us susceptible to all kinds of ailments, including Genital Wart infection.

So, what are Genital Warts ? According to a simple dictionary- Genital Wart infection is when viruses infect the body.

Because Genital Wart are so contagious, it is easily caught off someone else, even with minimum contact.

Genital Warts are a very serious condition, and it could be that you are suffering from a condition that only appears to be Genital Wart. If you or someone else thinks they may have Genital Wart, they should always get themselves checked out by a Doctor or other suitably qualified medical practitioner.

## Mother Natures Secret Bullets

Orthodox medicine believes that viruses are the cause of Genital Wart. They breed and multiply in and on your skin. Millions and millions of them.

So, how are you going to kill them?

You could use antiviral drugs. That will probably help.

But the antibiotics may kill all your 'good bacteria' too.

Good bacteria?

What are they?

They are the bacteria that Mother Nature uses and allows to live in your body. You also have all kinds of yeasts and moulds living in your body too.

They are there for a reason.

Antiviral drugs can kill the lot.

Which means you may have got rid of your Genital Wart infection, but you have left your body, including your immune system, depleted of several, possibly essential allies.

This could leave you exposed and vulnerable to further infection. (I personally had a yeast infection (candida albicans) for years as a direct result of repeated dosing with antibiotics).

I am not a scaremonger. Since their discovery, antibiotics have saved millions of lives, including my own. So they have their place!

*But, if you could kill just the bacteria and viruses on your skin, using another, more natural method, you would use it, wouldn't you?*

Of course you would.

So how are we going to kill the viruses which infect the body of a Genital Wart sufferer?

### **We use Mother Natures Secret Bullets.**

These secret bullets have been around for thousands of years. We may have known a little about their medicinal properties and we may have

Clears Your Genital Warts Fast!  
www.genital-wart-doctor.com

guessed that they made a difference to our health, but never before, until now, have we **scientifically proven** that these are the best of Mother Natures Secret Bullets.  
Only in the last few years have scientists discovered the amazing viral killing power of these natural substances.

Before I show you the simple and amazingly effective way of using them, I shall first tell you what they are.

They substances are plant extracts called essential oils.

**They have been specifically chosen for their proven ability to kill the viruses which cause Genital Wart.**

**This special blend has been developed over years of research on people with Genital Warts.**

**It has proven to stop Genital Warts- time after time.**

The active ingredients in **GenitalWartDoctor©** are

- origarnum marjoram
- juniperus comunis

### **A Word Of Caution About Using **GenitalWartDoctor©****

These products are used nowadays by millions of people. Because of this and because essential oils are natural plant extracts, some people think they are harmless or not dangerous – nothing could be further from the truth.

Some neat essential oils are powerful – so they must not come into contact with the skin, unless they are diluted first.

**Your remedy has been diluted with other plant extracts that also help stop Genital Warts.**

Before you use **GenitalWartDoctor©**, it is important that you test yourself to see if you are allergic to any of its ingredients.

Clears Your Genital Wart Fast!  
www.genital-wart-doctor.com

This simple test is explained at the end of this manual.  
They must never be taken internally.  
Always supervise children who use essential oils.  
In general, keep neat oil off your skin.  
Keep essential oils away from your eyes.  
Never put neat essential oils into or onto anything plastic.

**How To Use GenitalWartDoctor©**

- 1) Simply apply to infected area.**
- 2) Massage product into sores.**
- 3) Apply 4 times a day until sores vanish.**

## The Breakthrough Genital WartDoctor© Method

### Allergy Test

Please note, allergic reactions to essential oils are rare.

**In fact we have never seen an allergic reaction to this treatment.**

However, it is worth doing these tests.

- 1) Roll your sleeve up and place one drop of **GenitalWartDoctor©** on the inner part of your forearm, as shown in the photograph. Leave for 15 minutes.

Put one drop of **GenitalWartDoctor©** on the skin.

- 2) Observe your skin very carefully. Is it swelling? Becoming sore? Becoming red or inflamed? If so, it could be that you are allergic to **GenitalWartDoctor©**, and it is better that you do not use the product.

See the photograph below of an allergic reaction.  
(The oil used in this case was Cinnamon, which is **not** in our product).

Arm 15 minutes after oil is applied. Note allergic reaction.

## Commonly Asked Questions

- 1) **Do the oils kill any 'good' bacteria?** The oils are a natural but very powerful viral-killing agent. They will kill most bacteria and some viruses they come into contact with. That is why we only put the GenitalWartDoctor© onto our infected skin- to come into direct contact with the Genital Wart infection causing viruses that are growing there.
  
- 2) **How long before I can expect to feel an improvement?**  
Some people start to feel better and show an improvement after the first treatment. These people are usually 100% better after 3 or 4 treatments.  
Other people have real stubborn infections and it can take a longer.  
The trick is to persevere. If the infection is stubborn, then increase the treatments to 5 or 6 times a day until it clears. It is better to treat the infection little and often, rather than one long session.
  
- 3) **Will it stop Genital Wart infection coming back?** If the treatment is used once or twice a week, it will act as a preventative measure.
  
- 4) **Do I carry on with my medication?** Yes. As your symptoms disappear you may wish to discuss your medication with your Doctor.
  
- 5) **Do I have to tell my Doctor?** It is a good idea to discuss any medical matter with your Doctor.

From my experience, most Doctors regard most forms of alternative medicine as hocus-pocus.

The fact is you have got Genital Wart infection. This GenitalWartDoctor© remedy is extremely safe and inexpensive compared to drugs. GenitalWartDoctor© really works and in my opinion is much safer than antibiotics.

- 6) **Can I treat a child or baby?** Children's skin is very sensitive and not fully formed. Whilst I have never heard of anyone (adult or child) being hurt or injured with this product, to be on the safe side, I personally would always carry out the allergy test method on anyone, adult or child.

## Conclusion.

The amazing antimicrobial properties of the **GenitalWartDoctor®** formula have been proven in a laboratory and in peoples homes the world over.

Your health is in your hands.

Follow the instructions carefully, and persevere with the method. Whilst some people need only one or two days treatment, some need a prolonged series of treatments before they have completely eradicated the bacteria and viruses that cause their Genital Wart infection.

Good Health.

Joe Johnson
